

OFSTED Inspection Dashboard

The inspection dashboard is designed to show at a glance how well previous cohorts demonstrated characteristics of good or better performance. It contains a brief overview of progress and attainment at key stages 1 and 2 for 2016 and other data for the last three years. It shows progress first, including from the main starting points.

It includes the key groups: disadvantaged pupils, those who have special educational needs (SEN), girls and boys. Achievement of disadvantaged pupils is compared with the national performance of other (non-disadvantaged) pupils, overall and by prior attainment. SEN group progress is compared with the national for all pupils, which is zero.

The front page summarises strengths and weaknesses based on only the 2016 data shown in the dashboard. The strengths give an indication of some features of good or better performance in 2016, highlighting consistency across starting points and subjects.

This school is above Floor and is not a Coasting School. In coasting elements it has been above in 2014, 2015 and 2016.

Strengths in 2016

- KS2 progress was not significantly below average overall or for any prior attainment group in any subject *and not below -3.
- The proportion of pupils that met the expected standard in phonics was above the national figure in year 1.
- The proportion of disadvantaged pupils that met the expected standard in phonics was above the national figure for other pupils in year 1.
- The proportion of children that achieved a good level of development in the Early Years Foundation Stage Profile was above the national figure.

Weaknesses in 2016

- No weaknesses were identified in this dataset

Weaknesses are indicated for cohorts of at least six. Where a group is identified as in the highest or lowest 10%, it has been compared with the highest or lowest 10% of schools based on the figures for all pupils, and not the figures for the group nationally. Where attainment is identified as well below the national figure, this is by an amount equivalent to two or more pupils. Data for very small groups should be treated with caution. In progress strengths, 'significantly' refers to statistical significance based on a 95% confidence interval.
